CATEGORY INFORMATION  
LASER POINTER SAFETY  
GLASSES

Laser pointer safety glasses are specialized eyewear designed to protect the eyes of pilots from potentially harmful laser beams. Originally developed for US Military pilots, these glasses are specifically engineered to filter out and attenuate the wavelengths of light emitted by laser pointers, which can pose a significant safety risk when aimed at aircraft cockpits.

With Phillips Safety's laser pointer safety glasses you can count on superior protection and a comfortable fit, backed by our long-standing commitment to eye safety. Our strike eyewear features a lightweight design that fits comfortably under headsets or helmets. Additionally, we offer laser safety glasses that can be worn over prescription glasses, catering to the needs of those who require prescription eyewear.

CATEGORY INFORMATION  
LASER POINTER SAFETY GLASSES

Our laser pointer safety glasses feature specially designed polycarbonate lenses that offer distortion-free viewing of instrumentation. These lenses are also highly effective in protecting against all three laser color spectrums: green beam, blue/green beam, and blue/green/red beam. At Phillips Safety, this technology is available to civilian pilots, as well.

Our range of options offers varying visible light transmissions, ranging from 23.3% to 43.0%, depending on the specific laser color spectrums. Each product clearly indicates its corresponding VLT percentage. Moreover, all of our laser pointer safety glasses strictly adhere to ANSI Z136.1 safety standards, ensuring the highest level of eye protection.

PRODUCT INFORMATION  
GREEN BEAM LASER POINTER GLASSES 33

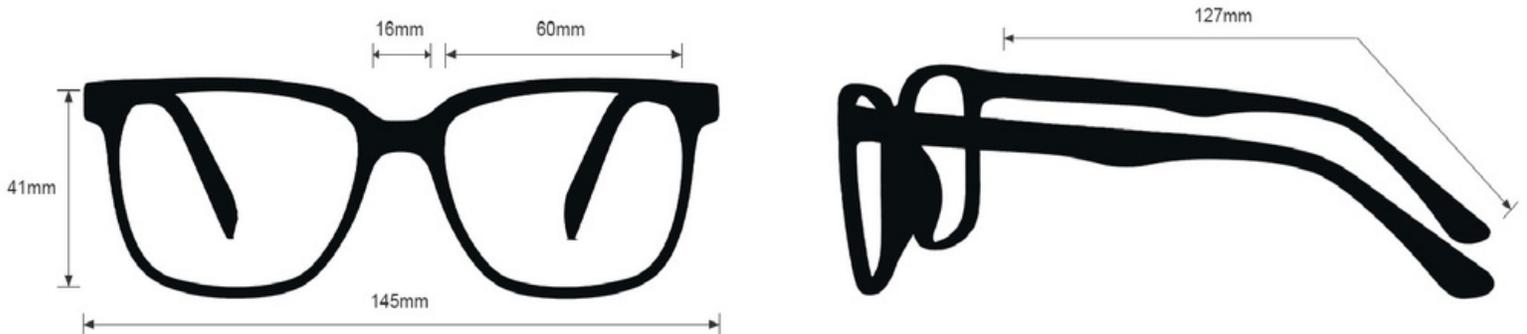

The Green Beam laser pointer safety glasses have a polycarbonate orange/peach lens filter that provides laser protection. These laser strike glasses have visible light transmission of 33%. In addition, the Green Beam laser pointer safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards. These laser strike glasses 33 are non-prescription. Made of high-quality plastic, it is a durable and lightweight fitover frame. The 33 laser strike glasses feature adjustable temples and integrated side shields. These Phillips Safety laser strike glasses are available in black and tortoise.
